SUMMARY OF QUALIFICATIONS

A focused and reliable developer with a strong foundation in web and mobile development. I approach challenges with a problem-solving mindset and take pride in delivering well-structured, efficient solutions. I am committed to continuous learning, with the ability to adapt to new tools and technologies, making me a dependable contributor to any team.

EDUCATION

Niagara College, Toronto, ON

Computer Programming, May 2023 – Dec 2024

- Major GPA: 3.74/4.00
- Taylor Opportunity Program for Students Scholarship

NTech Education, Ludhiana, Punjab, INDIA

Web Development, Apr 2022 – Mar 2023

- Gained hands-on experience in full-stack web development, focusing on front-end technologies and responsive design.

TECHNICAL SKILLS

- **Front-End Development:** HTML, CSS, JavaScript, Responsive Design
- **Full-Stack Development:** Ionic CLI, ReactJS, MongoDB, SQL Database Management System
- **Web & Mobile Development:** Cross-platform app development, UI/UX design
- **Tools & Platforms:** Git, Netlify, Visual Studio Code, Chrome DevTools
- **IT & Troubleshooting:** Software installation & configuration, basic networking, issue resolution
- **Version Control tools:** Jira And GitHub
- **Other:** Problem-solving, multitasking, collaborative team skills

PROFESSIONAL EXPERIENCE

Web Developer | NTech Education

(Apr 2022 – Mar 2023)

- Developed and maintained web applications with a focus on front-end design using HTML, CSS, and JavaScript.
- Implemented responsive designs to ensure compatibility across devices and screen sizes.
- Collaborated with the team to integrate back-end functionality, enhancing user experience and performance.

Co-op Developer | Tayco

(Sep 2024 – Dec 2024)

- **Role:** Full-stack Developer
- **Technologies Used:** Ionic CLI, ReactJS, MongoDB, SQL
- Developed a mobile and desktop application for Tayco to manage inventory more efficiently and print labels.
- Implemented front-end components using **HTML** and **CSS**, ensuring a responsive, user-friendly interface.
- Integrated **ReactJS** for dynamic content and real-time interactions.
- Managed inventory data using **MongoDB**, and designed SQL database queries for handling orders and tracking stock levels.
- Worked closely with a team to enhance application performance and optimize for business use.
- **Achieved a significant improvement in efficiency:** The time taken to write all order details by hand on the boxes was reduced from 7 minutes to just 7 seconds, using the label printing functionality within the app.

Cashier and Inventory Manager | Ultramar Gas Stations

(June 2023 – Present)

- Managed day-to-day operations, including cash handling, inventory monitoring, and customer interactions.
- Utilized advanced **Microsoft Excel** skills to efficiently manage employee shifts, optimize inventory counting, and track stock levels.
- Processed invoices and generated financial statements by accessing the gas station's back-end resources, improving the accuracy and timeliness of records.
- Troubleshoot minor technical issues with POS systems and fuel dispensers.
- Improved organizational and multitasking skills in a fast-paced environment, contributing to the smooth running of operations.

PROJECT

Tayco Mobile & Desktop Inventory Management App (Main Project)

- **Role:** Full-stack Developer
- **Technologies Used:** Ionic CLI, ReactJS, MongoDB, SQL
- Developed a cross-platform mobile and desktop application for Tayco to track inventory efficiently and print labels.
- Implemented front-end components using **HTML** and **CSS** to create a responsive, user-friendly interface.
- Integrated **ReactJS** for dynamic content and seamless user interactions.
- Managed real-time data with **MongoDB** and designed SQL database queries to handle order and inventory management.
- Focused on building scalable and performant systems to support business operations.

Basics of Python (Udemy)

- Completed the basics of Python, learning foundational concepts and programming skills.
- Gained experience in Python syntax, data structures, and writing simple scripts for task automation.

Parsley Website on Netlify

- Designed and developed a fully responsive website named *Parsley*, showcasing web development skills.
- Deployed the website on Netlify for scalability and fast loading times.
- Implemented responsive design principles for optimal viewing on various devices.

Additional Information

- Eligible to work in Canada without restrictions
- Strong interest in IT support and service management
- Enthusiastic about continuous learning and professional growth
